

**BABY CLINIC
VOTED A BIG
SUCCESS HERE**

Infants weighed, Measured and Examined by Physicians and Nurses at Clinic

DOCTORS ARE KEPT BUSY

Physicians, Nurses, Mothers Cooperate in Making the Event A Big Success

Cute little gurgling babies, frowning, crying babies, calm, big-eyed, wondering babies, frowning, kicking babies—they all were present at the clinics held yesterday at the Wachter school and the rest room of the Masonic temple as a part of "Child Welfare Week."

It might not be said that the babies particularly enjoyed being weighed, measured, examined by patient and willing physicians of the city who cooperated with the Women's Community Council of the city in conducting the free clinic. But mothers of the babies highly appreciated the opportunity to get the valuable, scientific information concerning their babies' advice as to the best food and best method of caring for the children.

Doctors and nurses were kept busy from the time the clinic opened until it closed last evening. During the morning the number was not so large, but along in the afternoon there was a steady procession of mothers with their precious infants to the clinic.

Here and there mother pride perhaps brought a frown at mention of some particular minor defect or some suggestion as to better care of the infant in accordance with its needs, but it was only for a moment, and mothers, physicians and nurses all found the clinic mighty interesting, and those in charge believe it was profitable.

So much Child Welfare work has been done under the auspices of the Women's Community Council during the winter that with the exception of the clinics yesterday no special effort was made to observe Child Welfare week here. The interest of the children in the week was awakened with the poster contest and the contest that will be on until the end of the school year when the child making the greatest gain in weight will receive a gold eversharp pencil.

Mrs. Bonham and Mrs. Edward Bannon were in charge of the clinic at the Wachter school. Mrs. Neussle and Mrs. Brandt were in charge of the clinic at the rest room. Both committees were pleased with the number examined and the work accomplished.

Nearly 100 Examined
Nearly one hundred children were weighed, measured and examined yesterday. Sixty were taken care of at the clinic and the Wachter school and 38 at the clinics at the rest room.

The committee in charge wish to thank the doctors, the nurses and the ladies who helped at the clinics and so splendidly cooperated in this work. The committees are also indebted to the Anti-Tuberculosis Association for the use of the Health Posters.

**MINE BLOWN UP
MEN START OUT
FOR SECOND ONE**

House Quarter of Mile Away From Pennsylvania Mine Considerably Damaged

Pittsburgh, Pa., May 12.—The Teterman mine in Penn township near here was blown up early today by a heavy charge of dynamite which threw stones so far that the farm house of George Wessel almost a quarter of a mile away was damaged. Sheriff Roberts Woodside with a big force of deputies, left Pittsburgh shortly after 9 a. m.

It was reported a body of coal strike sympathizers had collected. Ten minutes after the deputies left Pittsburgh, a Veteran said over the telephone from his home in Oakmount, Pa., that the men who had attacked his place were hastening in automobiles to the mine of Joseph Schenk, a half a mile away. One of the automobiles contained dynamite, he said and members of the crowd said they were going to "get the Schenk mine."

12 ARRESTED.
Pittsburgh, May 12.—Twelve men were brought to the county jail at noon today, having been arrested by deputy sheriffs after the Teterman county coal mine had been blown up and a demonstration made against the Schenk mine nearby.

**SMALL'S OPENING
STATEMENT MADE**

Waukegan, Ill., May 12.—(By the A. P.)—Emphasizing his carefully prepared statement with vigorous remarks Charles Leforgee, chief counsel for Governor Small, hammered the open declaration of the defense to the jury in the conspiracy trial today.

Divorce is increasing rapidly in England, especially among the poor.

Nitrogen gas used in light bulbs must be absolutely pure.

THE STORY OF ONE NURSE

Of in that hour of misery
A lady with a lamp I see
Pass thru the glimmering gloom
And lit the room to room
And slow as in a dream of bliss
The speechless sufferer turns
To kiss
Her shadow as it falls
Upon the darkening walls.

Florence Nightingale, the lamp that made her famous, a verse of Longfellow's poem dedicated to her, and views showing the varied work of modern-day nurses.

**FARMING BECOMES DAY AND NIGHT
BUSINESS AT STATE PENITENTIARY**

Warden Stair Orders Tractor Operated Day and Night To Get Big Crop In

TO OPEN THE BRICK-YARD

Farming has become a 24-hour-a-day business at the state penitentiary.

With a late season, purchase of a tractor by Warden J. L. Stair was authorized. The tractor now is being operated day and night. About 700 acres will be farmed, it is planned by Warden Stair. This will include about 80 acres of potatoes, rye, oats, corn, and probably 100 to 200 acres of millet. No wheat will be raised.

It isn't any trouble to get labor on the prison farm, although there is a shortage of farm labor reported at other places, according to the warden. Practically every prisoner would rather work out in the open than behind prison walls.

The penitentiary will soon be a hive of industry. In addition to the farm and twice plant the brickyard which has not been operated for two years will be reopened about May 2. The Volstead law has helped give additional labor to the prison to make possible operation of the units.

The warden is no exception to those who hope for a real crop this year. Although crops have failed on the prison farms the last two years, the cost of maintaining the penitentiary to the taxpayer was considerably reduced, according to records of the state board of administration. These figures show that under Mr. Stair's direction it cost taxpayers over \$100 a month to keep a person in the penitentiary for the year ending June 30, 1920, compared to \$24.28 per month during the current year, or less than one-fourth of the cost under the previous administration. The total saving made during the current year is over the previous year is placed at \$117,593.14, in spite of an increase in the number of persons in the penitentiary.

**BISMARCK GETS
DENTAL MEETING**

1923, Convention Awarded To This City

Bismarck was awarded the 1923 convention of the North Dakota State Dental Association, which ended its convention yesterday afternoon in Fargo. The time of meeting will be during May, next year.

Ira G. Nichols, of Mandan, was elected president. L. B. McLean, Jamestown, A. E. Baechler, Edgley, and C. A. Putney, Fargo, comprise the executive committee. Other officers elected are: Ira H. Wells, Harvey, vice president; C. D. Price, Fargo, secretary; and R. S. Towne, Bismarck, treasurer. The association went on record as in favor of interstate reciprocity with states whose requirements correspond to those of North Dakota.

The following were recommended to Governor Nestor for appointment to the board of dental examiners as vacancies occur: C. F. Swine, Minot; R. E. Percy, Mandan; and H. C. Cooper, Abercrombie.

Puthenia's declaration of independence was written in a Washington (D. C.) box 1 and her first executive was a Pittsburg lawyer.

**BOND BIDS TO
BE PRESENTED
FOR BIG ISSUES**

Representatives of Several Houses Seeking Purchase Of State Bonds

Representatives of bond and investment houses of several cities, including New York, Chicago, Cincinnati, Toledo, Minneapolis and St. Paul, were expected to submit bids today for the purchase of \$137,500 Bank of North Dakota bonds, from \$1,000,000 to \$1,500,000 mill and elevator bonds, and \$4,500,000 farm loan bonds.

A meeting of the Industrial Commission was scheduled for this afternoon if Attorney General Johnson were able to be present, to receive the bids. It was learned later that Mr. Johnson could not be present today and bids will not be opened until tomorrow. Information concerning the proposed bond issues given the bond men follows:

"The \$137,500 of Bank of North Dakota bonds draw 5 per cent interest. The Bank of North Dakota bonds are ready for delivery."

"The mill and elevator bonds have been printed and are ready for signature as soon as the additional appraisements on mill and elevator (Grand Forks) are made. The expectation is that the first half million additional appraisal will be made in side of a month. The balance will be mostly in June and July with slight additions in August. It is estimated that of the mill and elevator bonds there will be from \$1,000,000 to \$1,500,000 required."

"The Farm Loan bonds aggregate four and one-half millions and are deliverable as first lien farm mortgages; are assigned to and filed with the state treasurer in sums of \$100,000 or more. These will be needed during the period from July first to December 31, 1922. These have not been printed but will probably be printed as drawing five and one-quarter per cent interest."

"The bids should be in writing, should state the points above or below pay per bid for each of the three issues and should be either an outright sale of all of the bonds or a sale of the bank and mill and elevator series and a fiscal agency with an agreed minimum for the real estate series."

**COMMON SCHOOL
FUNDS GET HALF
MILLION DOLLARS**

More than a half million dollars have been turned into the common school funds of North Dakota by the State Auditors office thus far in the month of May. A first payment of more than \$200,000 was made from tax collections a week ago this morning, money appropriated by legislative action.

The recent collections on the state school funds has also enabled the turning of \$331,937.00 from the interest and loan funds and the added sum of \$600,000 from the fines, penalties and forfeitures fund. This is the quarterly payment from this fund.

Eighty years ago a nurse was a drudge, a so-called "ward maid," whose standing was that of a scrub-woman.

Florence Nightingale, coming from a distinguished English family, shocked her friends and relatives when she began nursing the sick. It was she who founded the profession as we know it today. Her writings on the subject are still used as textbooks, which shows how clearly she identified the fundamental in her field.

The Crimean War gave Florence Nightingale her opportunity. For the first time in history women nurses were attached to the British Army with Florence Nightingale at their head. "The soldiers loved her. She saved an inestimable number of lives. It was in this war service that she won the name of "The Lady of the Lamp," because of her devoted practice of going through the hospital wards at all hours of the night. Longfellow wrote a famous poem under this title.

Nursing has advanced far since Florence Nightingale's day. The profession has become more and more specialized, and the training more rigorous as standards were raised. In these days nurses are to be found not only in sick rooms, but in public health service, in industrial and laboratories, in schools, in operating rooms, everywhere. In fact, that offers a place to save life and relieve suffering.

And wherever there are nurses, May 12 probably always will be observed as the birthday of Florence Nightingale.

Many Bismarck people visited the local hospitals today and were shown through the institutions in observance of National Hospital day. The program which has been planned by the student nurses of St. Alexis hospital to be given this evening has been postponed on account of the death of Miss Elmch, one of the nurses. The program will probably be given some time next week.

**\$28,000 BONDS
ARE MISSING**

City of Minot Bonds Are Being Hunted

Twenty-eight thousand dollars worth of sewage bonds of the city of Minot, held in the office of the state land commissioner, have disappeared. A thorough search of the office and in the state auditor's office has failed to produce the bonds, according to C. R. Kostitzky, state land commissioner.

The bonds, it is said, were executed. It is not believed that they have been stolen and it was thought "possible that they might be located later. It is not expected any loss could be occasioned the state.

The matter came to light when an employee went in the vault to get the bonds. The land commission had purchased \$25,000 of bonds of the city of Minot. There had been paid to date to Minot a total of \$257,000. There remained in the land office bonds amounting to \$28,000, for which funds had not been advanced. Money became available for the payment of \$15,000 more on the bonds. In certifying the records an employee started to look up the bonds, and could not find them.

It is thought they may be located later.

W. J. Prater, former land commissioner said "I am satisfied the bonds were there when Mr. Kostitzky entered the office and I believe they still are unless since removed."

Mr. Prater said no loss could be occasioned as bonds are payable to the state.

**SENATE VOTES
FOR PROBE OF
STEEL MERGER**

Resolution Adopted With Little Debate for Investigation Of Consolidation

WALL STREET THRILLED

President of Bethlehem Steel Corporation Says Purchase Has Been Made

Washington, May 12.—Federal inquiry into reported plans for a merger of a number of the largest independent steel corporations, including the Bethlehem and Lackawanna companies, was ordered today by the senate in adopting a resolution of Senator LaFollette, Wisconsin, calling upon the department of justice and federal trades commission to take steps designed to prevent the combination.

Adoption of the resolution followed in extended address by Senator LaFollette attacking the proposed combination which he said would give it and the U. S. Steel Corporation virtual domination over the steel industry. Unanimous consent was given for immediate consideration of the resolution and there was little other discussion.

Hope that the department of justice would be "sufficiently aroused to enjoin the proposed steel merger before it is consummated" was expressed by Senator LaFollette in calling up his resolution for investigation by the department and a federal trade commission of the reported merger plans of the Bethlehem and Lackawanna corporations and possible inclusion of other important independent steel companies in the consolidation.

MERGER PLAN ANNOUNCED

New York, May 12.—Purchase of the Lackawanna Steel Company of Lackawanna, N. Y., by the Bethlehem Steel Corporation, involving the use of Bethlehem seven per cent preferred and Class B common stocks in payment for their properties, was announced yesterday by Eugene G. Grace, president of the Bethlehem organization.

News of the merger, which became known just before the stock market closed, gave Wall Street a real thrill. Lackawanna Steel made a net gain of seven points closing at 67 3/4. There was 1 1/2 activity in Bethlehem steel, which closed at 79, the top price and a net gain of 1 1/4 points.

**LABOR BUREAU
READY TO OPEN
HARVEST SEASON**

United States Labor Bureau Plans For Season

Washington, May 12.—Special temporary officers have been established and other arrangements have been made by the farm labor bureau of the U. S. employment service for the opening of the harvesting season in the wheat belt, it is announced. George Tucker, field representative of the bureau with headquarters at Kansas City, it was said, will cooperate with federal directors, state and municipal employment services, county farm agents and agricultural associations in the clearance of farm labor from Texas to North Dakota.

Bulletins giving detailed information about harvest work and farmer needs will be mailed to persons seeking jobs upon application to the Kansas City office.

**STATE TROOPERS
ORDERED OUT**

Haverstraw, N. Y., May 12.—Twenty state troopers were ordered into Haverstraw today to guard the town against threatened outbreaks of 1,000 negroes who are on strike in the 35 brick plants here. It is expected more troopers will arrive from Albany and Troy this afternoon.

**WHAT IT IS COSTING STATE
TO TRY OUT STATE SOCIALISM**

May 1, according to figures of the state treasurer's office, there was outstanding but \$202,000 of old North Dakota bonds. All other bonds outstanding were bond issues created for state socialistic experiments. Old bonds outstanding were:

Refunding bonds due 1923.....\$ 30,000.00
Revenue bonds due 1923.....130,000.00
Refunding bonds due 1927.....42,000.00

Total.....\$202,000.00
Issues on account of the state industries are:
Mill and Elevator bonds issued.....\$1,141,200
Bank bonds.....2,000,000
Real Estate Loan bonds.....2,990,000

Total.....\$6,181,200
Interest money in the treasury to apply on bond issues, most of it raised by taxation, follows:

State bond sinking fund.....\$ 22,075.82
State bond interest fund.....38,841.38
Bank bond payment fund.....63,416.10
Mill and Elevator payment.....155,236.07
Real Estate bond payment.....63,145.21
Home Building Association.....58,723.24

Total.....\$401,437.82

In addition bonds are to be received this week for the purchase of a total of from \$5,000,000 to \$6,000,000 of bonds.

**WOULD CANCEL
LAND CONTRACTS**

Contracts held by non-residents of the state for purchase of school lands in North Dakota will be cancelled July 1 unless delinquent interest and principal is paid, according to notice dispatched today by registered letter by Carl R. Kostitzky, land commissioner. Similar notices are sent to a few residents of North Dakota who appear to have purchased the land for speculative purposes, according to the commissioner.

**FRANCE BALKS
AT REQUEST OF
SOVIET RUSSIA**

Will Never Agree to Projects for Mixed Commission, Her Delegates Say

Genoa, May 12 (By the A. P.)—France will never agree to the projects for a mixed commission sitting indefinitely while the conference is going on, to study Russian affairs, according to a statement issued by the French delegation this noon.

MEETING POSTPONED
Genoa, May 12 (By the A. P.)—The economic conference sub-commission on Russian affairs this afternoon postponed consideration of the Russian reply to the allied memorandum until 11 o'clock tomorrow morning.

TRUCE PROPOSED

Genoa, May 12 (By the A. P.)—Great Britain has proposed a truce in eastern Europe on the basis of the de facto frontiers pending the conclusion of a commission of inquiry to be appointed, it was announced this afternoon.

SEES CONFERENCE CONTINUING

Genoa, May 12.—Foreign Minister Schanzer of Italy addressing the entire body of newspaper representatives in attendance upon the economic conference late this afternoon expressed the opinion that the Russian reply would not prevent the continuation of the conference.

**SUPREME COURT
ASKED TO FREE
CONVICTED MAN**

Writ of Habeas Corpus Sought In Case of Valley City Man in Prison

The supreme court today has under consideration an application for a writ of habeas corpus made in behalf of W. A. Jarvis, of Valley City, who is confined in the state penitentiary. The writ was expected to be had in the matter today.

Jarvis, a business man of Valley City, who is said to be worth a considerable amount of money, including ownership of an apartment house, was tried and convicted of a charge of receiving stolen property and sentenced to the penitentiary for five years. He has been imprisoned since June 21, 1921.

It was charged that he had on March 10, 1921, received a Ford coupe automobile, which was stolen, in the city of Fargo. The auto was stolen from E. W. Cowdrey.

Attorneys for Jarvis assert that he is innocent, maintaining that he was in Minneapolis at the time he was accused of receiving the automobile, that he should have been tried in Cass county, and assert that a man worth considerable money as they maintain Jarvis was, would not be guilty of stealing an automobile. He is represented by George E. Wallace and Nelson A. Mason.

Accompanying the application were attestations of good character of Jarvis made by R. L. McNell and J. H. Nelson, of Valley City. Jarvis had not been married long before he was sentenced to prison, his attorneys said. He was sentenced by Judge Engert.

Shagreen is the tanned hide of fishes.

**TERRIFIC SLEET
AND SNOW STORM
IN BLACK HILLS**

Precipitation of More Than Five Inches in 48 Hours Undates Two Towns

STORM ABATES SOMEWHAT

Lead and Deadwood Are Under Foot and Half of Snow, Halting Traffic

Deadwood, S. D., May 12.—The terrific sleet, rain and snow storm raging in the northern Black Hills for the past two days had somewhat abated early today after precipitation of more than 5 inches within 48 hours had caused floods which inundated Spearfish and Belle Fourche. No lives were lost.

Spearfish suffered heavy property damage after the flour mill dam broke yesterday, causing a high head of water to rush through the city, demolishing a large ice house and a livery barn. Hundreds of persons in the lower part of town were forced to flee for their lives to higher grounds.

Belle Fourche was partly under water late last night as the Belle Fourche river carried surplus water from the Spearfish dam to that city.

The Orem dam, a government project and the largest dirt dam in the world, was still holding late last night but was expected to go out, anytime.

Both Deadwood and Lead were under a foot and a half of wet snow which made street traffic impossible.

**SOVIET RUSSIA
MAY LEGALIZE
PRIVATE RIGHTS**

Bill Presented for Discussion Before the All-Russian Central Committee

Moscow, May 12 (By the A. P.)—Legalizing recognition of private property rights in money, industrial and agricultural products and other personal property and to a certain extent in real estate is proposed in decrees which the Soviet government prepared for presentation before the all-Russian central executive committee for passage at its opening session today.

STAY SUSPENDED

Moscow, May 12 (By the A. P.)—The Soviet central executive committee officials have ordered a stay in the execution of the 11 persons convicted of having opposed the regulation of church treasures and participation in consequent disturbances. The stay is operative pending the appeal to the supreme tribunal. Eight of the 4 convicted are priests, two are laymen and one is a woman.

**WILL OBSERVE
MEMORIAL DAY**

Plans Being Developed by American Legion

Plans are being developed by the American Legion for observance of Memorial Day in Bismarck, May 30. The cemeteries will be visited during the morning of that day and flowers placed on the graves of veterans of all wars, the Legion co-operating with the G. A. R., W. R. C. and Spanish War Veterans.

There will be a parade in the afternoon, ending at the auditorium where a patriotic service will be held. It is probable that there will be a patriotic pageant and an address.

Plans also are being made for observance of Memorial Day in the city schools.

**GERMANY FOR
RUSSIAN LOAN**

Representative in This Country Talks on Subject

Philadelphia, Pa., May 12.—Impartial experts agree that the only hope of economic reconstruction for Germany lies in a speedy and considerable reduction of the exaggerated reparations payments and the deferment of all such payments for "at least a number of years." Karl Lang, German chargé d'affaires, declared in an address here today before the American Academy of Political and Social Science.

In his first utterance since arriving in this country last fall Mr. Lang added that an equally important essential to Germany's economic recovery was the negotiation of an international loan in this, he said, Germany hoped the United States would take part.

TO ISSUE DIRECTORY.
An industrial directory of North Dakota, containing the names of all industrial firms in the state, the number of men employed and other information will be issued by the commissioner of agriculture and labor.

A mountain is being leveled and not changed in the last 10 years.

GERMANY AND SOVIET FORM MILITARY PACT

French Advances Declare that Military Convention Has Been Entered Into

Paris May 11 (By the A. P.)—The newspaper L'Eclair today printed the text of a military convention said to have been signed by representatives of the Russian Soviet army and the German general staff in Berlin on April 3. By the principal clause of which the Germans agree to furnish the Red army with the armaments and material necessary to equip 180 regiments of infantry and sufficient heavy field artillery for 20 infantry divisions.

The German general staff, according to the convention, pledged to receive from the Russian Baltic and Black Sea fleets and to supply at the earliest possible date 500 new airplanes with a supply of spare parts and 150 field wireless outfits. The Russians will train 100 Russian instructors in the latest discoveries and inventions in chemical warfare and send technical experts to Russia to speed up the existing munition plant and open up new factories.

The Red Army staff guarantees the establishment in Russia of three German plants, one for the manufacture of airplanes, one for poison gas and one for arms on condition that the Russian army can use the output when needed. German specialists would be admitted to "the new arms factories in Afghanistan."

The text printed by L'Eclair also says Russia would promise to maintain not less than 18 infantry and cavalry divisions on the western Russian frontier.

SPECIAL REPORT DENIES "FLOOD" OF BOGUS BONDS

Report to be Submitted Understood to be Practical Vindication of Treasury

Washington, May 11.—The report of the special treasury committee which made an inventory of the supplies and equipment of the bureau of printing and engraving following the recent reorganization of the bureau's personnel completed today is understood to be a substantial vindication of the declaration by treasury officials that no material output of illegal bond notes or stamp issues had taken place within recent years.

The report which is expected to go to Secretary Mellon this afternoon will record, however, that a discrepancy of some 50 sheets was found when a check was made of the special paper used in the bureau for printing of bonds and notes.

Since the discrepancy occurred within the period covered by the last four years of operation of the bureau was not confined to any one section of the institution, officials held that the missing material would not have been sufficient to have given foundation to the charges that the country had been "flooded" with duplicated bonds.

DR. GILMORE MAKES TALK

Curator of Museum Speaks at Buffalo Meeting

Buffalo, N. Y., May 11.—Dr. M. R. Gilmore, curator of the North Dakota Historical Society, described the making of phonograph records and the making of motion pictures of three distinct ancient ceremonies of the Arrikara Indians before the annual meeting of the Association of Museums here today.

Dr. Gilmore called attention to the fact that the tribe had probably originated near Mexico and moved northward. The first ceremony described was the preliminary or cleansing ceremony, the second the ceremonial of the grand-mother Cedar tree and the third of Mother Corn, the latter one of great antiquity.

FIVE HETTINGER MEN HELD
Mott, N. D., May 11.—Federal prohibition officers and Hettinger county authorities making a raid, seized several stills and arrested five men all of whom were bound over to the next term of district court on charges of moonshining. The men include: Peter Siller of Willa on whose place a still was seized and who was recently fined \$10 in federal court at Bismarck for moonshining; John Baum-busch of Regent, who officials say had home-brew in his possession; William Mehner, charged with having mash; John Myle of Regent, who officers say had a still; and Robert Schafnak, an alien who may be deported.

ENGINEER NAMED
C. A. Myhre, division engineer of the highway commission, has been named project engineer of the state highway commission. Mr. Myhre formerly was stationed at Valley City.

CIVIL SERVICE PLACE
Examinations will be held for druggists in the United Civil Service on May 27. Examinations will be held in North Dakota at Bismarck, Devils Lake, Dickinson, Fargo, Grand Forks, Harvey, Jamestown, Kenmare, Minot, New Rockford, Oakes, Valley City, Wahpeton, Williston.

Dance every Tuesday, Thursday and Saturday evenings at 8:30 at The Coliseum. 10 Cents per dance.

YOU CAN BE YOUNG AND FULL OF PEP AT 77—MRS. WHIFFEN PROVES IT!

MRS. THOMAS WHIFFEN AND SOME OF THE ACTIVITIES THAT KEEP HER YOUNG AT 77.

BY MARIAN HALE
The beauty secrets of a girl of 17 are interesting, but easily discredited on the ground that the real secret is youth, despite her devotion to Jones' tonic and Smith's cream.

But—when a woman who has come within three birthdays of being 80 years old makes observations on the subject of feminine beauty, conviction goes with her words. Especially if she has had 60 years on the stage and is still successfully competing with the spring crop of Broadway beauties!

Such a woman is Mrs. Thomas Whiffen, a girl of 77, and that's what I asked her for a few timely remarks on keeping young and beautiful. "I was never a beauty," she began, "so I never stayed up nights trying to keep what I didn't have. Instead, I went to bed at night and got my sleep, arose early and took plenty of exercise."

"I'll tell you something—most of the actresses you admire on the stage aren't really beautiful. They are clay r. They make you think they are beautiful by acting as if they were. "A woman soon outlives her flapper days—at least she should. If she hasn't outgrown her baby stare and still acts like a debutante at 40 she is a pathetic sight."

"To live keenly and get anything out of life you've got to experience and to think. The things will make you mature and you will show it. But maturity has its beauty. "Experience, tolerance, understanding and love combine to make something which radiates from the face that is as powerful as the beauty of youth."

"Sarah Bernhardt is an example of a clever woman. Why do you suppose she always wears high necked gowns with soft, ruff effects about her throat? "Simply because she was always thin and never had a beautiful neck. Instead of getting excited about it, though, she just covered it up and acted as if it were lovely."

"Notice her hair—it's always pulled down over her brows. That's because her forehead is wrinkled. She probably conceals a number of deep lines under that red hair—but isn't that the sensible thing to do? "I believe every woman can keep young, however. She needs only keep up her youthful enthusiasms and her interest in others."

"I can do now anything that I ever did—but I do it in moderation. I get much pleasure from playing the piano, and much from dancing. I seldom dance in public any more because I do not know the new dances. But I enjoy a waltz as much as I ever did. "Mountain climbing—they're really only hills—is one of my greatest pleasures. I have a country place down in the Blue Ridge mountains and I spend a great deal of time out of doors in my garden. There wasn't a day last winter, no matter how stormy it was, that I wasn't out for at least an hour."

"I can still jump into a part on short notice and learn my lines as easily as I ever did. I want to stay on the stage until I am 80. Then I expect to retire and spend the rest of my time in the country. "If I were asked to lay out a beauty schedule for a woman I'd say: Work hard, play hard, spend some time out

MRS. HATFIELD SABINA, OHIO

In Pitiable Condition when she Began Taking Lydia E. Pinkham's Vegetable Compound

Sabina, Ohio.—"I took Lydia E. Pinkham's Vegetable Compound for weakness and irregularity. I was weak and nervous and could hardly stand on my feet long enough to cook a meal. I was this way for about a year and had tried several medicines and had a physician, but to no avail. My sister was taking your medicine and finally induced me to try it. I now feel fine and can do my housework without any trouble at all. You can use this letter for the sake of others if you wish."—Mrs. WELDON G. HATFIELD, R. R. 3, Sabina, Ohio.

Housewives make a great mistake in allowing themselves to become so weak and nervous that it is well-nigh impossible for them to attend to their necessary household duties. Lydia E. Pinkham's Vegetable Compound should be taken when you first notice such symptoms as nervousness, backache, weakness and irregularity. It will help you and prevent more serious trouble. Give it a fair trial. It surely helped Mrs. Hatfield, just as it has many other women.

HOW YOU CAN KEEP YOUNG.
Losing your grip on youth? You needn't! Look at Mrs. Thomas Whiffen, 77, still taking an active part in a theatrical production! "Every woman can keep young," she says, "as long as she retains her youthful enthusiasms." Read Mrs. Whiffen's story and practice what she preaches before you begin to say: "I'm not as young as I used to be."

of doors every day, and some with a good book—and learn to relax. "That's about all I can tell you." At that point Mrs. Whiffen heard her cue and went on with "The Adversity of Kate," her current play.

AMNESTY BILL IS INTRODUCED

Senator Ladd, North Dakota, Puts Bill in Senate

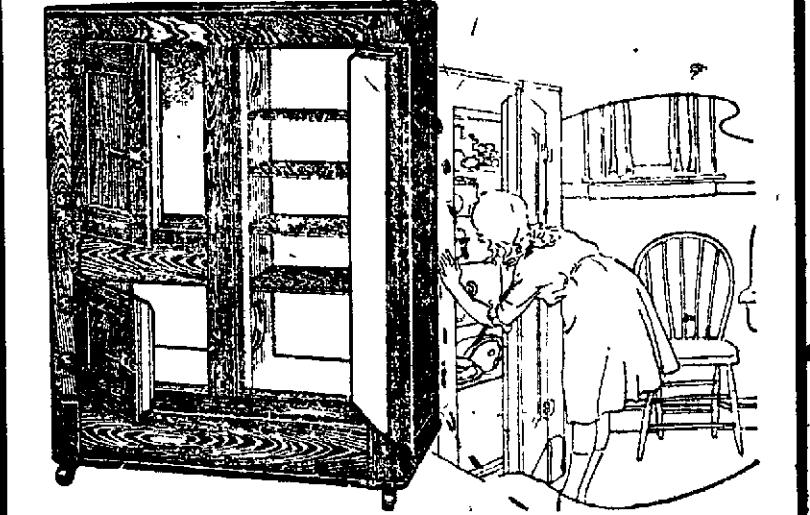

Washington, May 11.—A bill granting amnesty to all persons held in federal prison for violation of the war time espionage laws was introduced in the senate today by Senator Ladd, Republican, North Dakota, who estimated that 113 persons would be effected. He said the bill will not cover cases of spies or communicating with the enemy.

The measure follows in general line the amnesty proclamation of President Johnson at the end of the civil war, declared Senator Ladd, who declared that its provisions would not only give them freedom but would restore their rights, privileges and immunities as citizens under the constitution.

ANOTHER ELECTION LIKELY
Starkweather, N. D., May 11.—Because of a ruling of the attorney general's office that the ballot and notice of election must state specifically the rate of interest which proposed bonds are to carry, the Starkweather special school district probably will have to hold another election upon the question of issuing \$25,000 of bonds for building a new school house. The bond issue was approved at a recent election. It is stated that the form approved two years ago was used in the recent election.

FIRST LAKE MOVIE CONTEST
Devils Lake, N. D., May 11.—The first radio concert to be heard in Devils Lake was that "caught" Sunday in the Grand theater by the radio apparatus installed by Archie Stiller, manager. About 20 guests listened to grand opera music broadcasted from Denver and Chicago. The concert lasted about two hours. Auditors said they could hear every note as distinctly as if the singers were in the room.

IMMIGRATION BAN IS EXTENDED

Washington, May 11.—President Harding today signed the bill extending for two years from next June 30 the 3 per cent immigration restriction act.

Dance every Tuesday, Thursday and Saturday evenings at 8:30 at The Coliseum. 10 Cents per dance.

Good homes at small prices and easy terms, pay for your home on your rent money.

- 1—All modern 4 rooms with bath, lovely place, hardwood floors, finished and entirely equipped for a home. Price \$3350.00, \$600 cash and \$35 per month.

- 7—6 room all modern, full basement, furnace, price \$3650, small payment.

For that next insurance policy or renewal. Phone 961, Henry & Henry

COMMENCEMENT GIFTS

The graduation gift has a sentimental value out of all proportion to its cost. A very expensive gift received later in life would never mean so much as a much cheaper present at commencement.

We are showing an extensive line of gift things suitable for the Boy or Girl graduate. In helping you choose a gift, we consider the pleasure it is to give as much as we do the profit we may make. Give the graduate something lasting, a ring, watch, or other suitable pieces we are showing.

SPECIAL-SIX
Five-passenger, 50-horsepower 170-inch wheelbase Cord Three Standard Equipment \$1475
F. A. B. Factory

The intrinsic value and enduring quality of the Special-Six have won for it the hearty endorsement of thousands of owners. It will win you, too, when you consider:

- its comfort—seat cushions of soft, genuine leather, nine inches deep; long semi-elliptic springs, front and rear. Seats five without crowding.
- its power—L-head motor, 3 1/2 x 5, which develops 50 horsepower. Remarkable for its flexibility.
- its economy—low maintenance cost and infrequent repair shop attention.
- its beauty—body of harmonious lines built by Studebaker experts, with tailored top, which holds large plate glass rear window.
- its equipment—jeweled eight-day clock; one-piece, rainproof windshield with windshield wiper; tonneau light with extension cord; transmission lock which reduces rate of theft insurance to owner 15 to 20 per cent; one key locks tool compartment in left front door, ignition switch and transmission lock.
- its background—Studebaker's prestige and seventy years' experience in building quality vehicles assures complete satisfaction.

BUILD YOUR OWN HOME

Today, real estate can be had for what it is worth; the inflation has gone out.

The fellow who has been "thinking about it" should now take notice and he can very likely find it easy to make arrangements to build a home.

Talk it over with your real estate firm, the lumber dealer, the architect, the contractor, the banker or the building and loan companies. Everyone of these agencies will help you find what you are looking for, be it a lot, information about material or building costs, or part of the money you may need to build your home.

Real estate is beginning to move. The depression is past. Business is fast resuming normal proportions. Prospects for a good year are excellent. **BUILD NOW** and help yourself and your city. Stop dreaming. **GET BUSY.**

SPORTS

CARPENTIER IS EASY VICTOR

Knocks Ted Lewis Out in First Round of Bout in London

London, May 12.—Georges Carpentier last night knocked out Ted "Kid" Lewis in the first round of what was said to have been a 20-round bout for the light heavyweight championship of the world, held by Carpentier. The end came when Carpentier, in breaking from a clinch drove a sharp right to the point of Lewis' jaw. The Englishman toppled over backwards and lay motionless on the floor until the referee counted ten. Then Carpentier picked up his fallen foe and aided in carrying him to his corner.

The spectators were slow to realize what had occurred, but when finally they comprehended that the battle was over and Lewis was defeated, there arose a storm of boos and cries of "foul" from all parts of the vast auditorium, which drowned out the comparatively little applause which Carpentier received.

Big Crowd Attracted.
From the sound of the going to the end of the referee's count two minutes and 15 seconds intervened. Carpentier weighed 157 pounds, the light heavyweight limit, while Lewis tipped the scales at 157 pounds with his clothes on when the fighters weighed this afternoon. Jack Dempsey, world's heavyweight champion, was the first man after Francois Descamps to congratulate Carpentier, after the knockout. Carpentier left the ring and proceeded to his dressing room through lanes of hissing and booing fight fans.

SCANDAL POT IS BUBBLING

Milwaukee, Wis., May 12 (By the A. P.).—The baseball scandal pot which was set boiling yesterday by Oscar (Happy) Felsch in the charges of crookedness in the 1917 American League pennant race of the Chicago White Sox and Detroit had more content stirred into its bubbling contents today when Sheriff Patrick McManus was given summons for the American League baseball club of Chicago to defend itself against two new suits.

JESS NOT AFTER DEMPSEY'S SCALP

Los Angeles, Calif., May 12.—Jess Willard, heavyweight boxer, mentioned in recent dispatches from Paris as a possible early opponent for Jack Dempsey, is not seeking a return match with the world's champion, according to a statement addressed by Willard to a local newspaper.

Willard arrived here sometime yesterday but secluded himself.

STILL TAKEN AT FARM HOME

Fred Roberson, living about 12 miles northeast of Bismarck, will be charged with violating the prohibition laws, prohibition officer F. L. Watkins said today following a search of his farm home yesterday afternoon by Mr. Watkins and Deputy Sheriff Kafer. One complete copper still and five gallons of corn and raisin mash were confiscated, it was said.

TOWNER BANKER PLEADS GUILTY, GOES TO PRISON

Judge Miller in Federal Court Gives Bergh Year and a Day in Pen

Fargo, N. D., May 12.—H. H. Bergh, former cashier of the First National Bank of Towner, N. D., who was yesterday sentenced to a year and a day in the federal penitentiary after he had pleaded guilty to violation of the national banking laws, was not removed to Leavenworth, Kan., as was reported last night. He was still in Fargo today and federal officials refused to divulge what disposition would be made of him.

APPOINTMENT IS MADE BY COURT

Benton Baker to be Referee in Bankruptcy

Announcement has been made by the clerk of United States District Court of the appointment by Judge Andrew Miller of Benton Baker, of Bismarck, as referee in bankruptcy for the southwestern division of the state. The appointment is for a period of two years. Mr. Baker will succeed H. F. O'Hare, who has occupied that position.

The position of referee in bankruptcy is regarded as an important one and Mr. Baker was held by the court to be highly qualified for the position through legal training and experience.

F. will give a dancing party immediately after, to which all Odd-Fellows and their friends are invited. Refreshments will be served.

BANKRUPT'S PETITION FOR DISCHARGE AND ORDER OF NOTICE

In the District Court of the United States.
For the Southwestern Division, District of North Dakota.

In the Matter of Peter Rennich, Bankrupt. No. 3296 in Bankruptcy.
To the Honorable Andrew Miller, Judge of the District Court of the United States for the District of North Dakota.
Peter Rennich, of Bismarck, in the County of Burleigh, and State of North Dakota, in said District, respectfully represents that on the 21st day of December, 1921, last past, he was duly adjudged bankrupt under the acts of Congress relating to bankruptcy; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said acts and of the orders of the court touching his bankruptcy. Wherefore, He prays that he may be discharged from all debts provable against his estate under said bankruptcy acts, except such debts as are excepted by law from such discharge.

Dated this 15th day of April, A. D. 1922.
PETER RENNICH, Bankrupt.
ORDER OF NOTICE THEREON
District of North Dakota, ss:
On this 2nd day of May, A. D. 1922, on reading the petition for discharge of the above named Bankrupt, it is—
Ordered By the Court, that a hearing be had upon the same on the 27th day of June, A. D. 1922, before the said court, at Fargo, in said district, at ten o'clock forenoon; and that notice thereof be published in The Bismarck Tribune, a newspaper printed in said district, and that all known creditors and other persons in interest may appear at the said time and place and show cause, if any they have, why the prayer of the said petition should not be granted.

And it is further ordered by the court, that the Referee in Charge shall send by mail to all known creditors copies of said petition and this order, addressed to them at their places of residence as stated.
Witness the Honorable Andrew Miller, Judge of the said court, and the seal thereof, at Fargo, in said district, on the 2nd day of May, A. D. 1922.
J. A. MONTGOMERY, Clerk.
E. R. STEELE, Deputy Clerk.

TWO CHILDREN STRUCK; FARMS ARE DAMAGED

LaMoure, N. D., May 12.—Two children were struck by lightning and seriously injured, and farm buildings were destroyed with a total loss of probably \$50,000 in a storm of cyclonic proportions that swept the district from Nortonville to Kulu early Tuesday.

The children hit by lightning are of the John Weber family living near Dickey. They probably will recover. The heaviest individual farm building loss so far received is that sustained by Charles Lamp residing near Nortonville who lost two big barns and two granaries, considerable livestock also being killed.

The storm struck shortly after midnight and reports are still coming in of losses.

The Salvation Army Home League will hold a sale of fancy goods and food stuffs at 2 o'clock Saturday afternoon at 215 5th Street in Mr. Shipp's place.

GRAND JURY IS IN SESSION

Federal Jury Is Instructed By Judge Miller

Fargo, N. D., May 12.—A federal grand jury, comprising 23 residents of various sections of North Dakota, and of which W. D. Bristol of Fargo, is foreman, went into session in Fargo yesterday, Andrew Miller, judge of United States court for this district, charged the jury as to its authority and explained in detail, the national banking laws, postal law, prohibition act and other federal regulations. Several alleged law violations will be investigated, according to information received at the office of the United States district attorney. It is expected the jury will be in session two days.

The jury, headed by Mr. Bristol, includes: H. C. Loy, Stanton; Roy G. Frothing, Fargo; Oscar Sprecker, New Leipzig; Charles A. Hincmeyer, Stanton; C. F. Brandes, LaMoure; Howard Roe, Buchanan; B. F. Lundeen, Ken- sal; Ray Warner, Fargo; J. E. Rand, New England; C. S. Fairfield, Garden; Louis Berquist, Underwood; E. H. Headland, Litchville; O. R. Thue, Stanton; O. M. Young, Bismarck; C. H. Shiel, Lidgerwood; P. E. Johnson, Petersburg; John Saller, Stanton; William McGulgan, Embden; H. H. Thue, Horace; J. A. Elliott, New England; Alexander Harchanik, Benedict; and A. L. Almos, Ambrose.

Approximately 25 arraignments have been made before Judge Miller, since federal court opened Tuesday, and more are to be made today.

GRAND FORKS TO ENTERTAIN N. D. TEACHERS

Annual State High School Conference Will Also Be In Session There Same Time

H. S. CONTESTS MAY 19

Grand Forks, N. D., May 12.—In one week Grand Forks will be the educational center of North Dakota. At that time, the Northeastern Division of the North Dakota State Teachers' association will be in session, the annual state high school conference will be in session and the boys and girls from the North Dakota high schools will be gathering to take part in the contests of oratory, debate, music and athletics.

The teachers of the Northeastern Division meet first, Wednesday, May 17th, witnessing their first meeting. Following this, the state high school conference, which includes the heads of the high schools of the state will begin its sessions Thursday. The high school contests begin Friday, May 19, and continue, almost without interruption until completed late Saturday.

This year's meeting will witness a change in the state high school conference, which has met at the university for years, and which before this year has been directed by men connected with the university. The organization is considered by the men and women composing it, as the most professional of the North Dakota teachers organizations. This year a committee composed of Joseph Kennedy of the university, George A. McFarland of Williston, G. W. Hanna, Valley City, E. J. Taylor of Bismarck, and Martha T. Fulton of Wahpeton, will report a system of organization by which the members of the conference will take active charge of its activities, without in any other way changing the character of the conference.

Three Days' Conference.
The three days' conference of the teachers of the Northeastern division will be presided over by Peter Anderson of Lakota, its president. Among the speakers will be President L. C. Lord of the State Teachers College, Charleston, Illinois; Dr. Fletcher Harper Swift of the University of Minnesota, St. Paul; J. M. Gillette of the University of North Dakota, Dr. J. O. Evin of the Mayville State Normal School, and A. M. Kvello of Lisbon, president of the State School Directors association.

Before the state high school conference, which will be presided over in the beginning by President Kane of the university, the speakers will be President Lord and Professor Swift, Miss Minnie Nelson, and C. L. Robertson of the State Department of Education. Before both sessions, a large number of the members of the university faculty and of school teachers of North Dakota will appear discussing the different phases of education.

The Northeastern program will have the professional side of teaching as its first subject, most of the first day being spent in discussing affairs purely professional. The Thursday program will be given over to a health presentation, while the Friday session will be a number of round tables. The sessions of the division will be quite largely in the city of Grand Forks.

The conference will take up the subject of high school problems, of teaching training, of research and of community service. The conference will meet at the University of North Dakota.

The contests between the high schools of the state will include, beginning Friday, glee clubs, small organizations and soloists in music or debate of the state high school debating league, a dramatic contest, the state high school track and field meet and a tennis meet.

For the entertainment of the visitors, the university will put on, Friday and Saturday evening, a May fete, directed by Professor Nell Martindale of the university.

REMOVING GLOVES.
One clever woman, who believes in making her clothing last as long and at the same time look as well as possible, has an excellent way of removing gloves. She pulls the wrist down over the hand. Then with the inside of the wrist between her fingers loosens and slips off each of the glove fingers. Next she pulls them gently to straighten them out, then blows into them and puts them away.

Saccharin is 300 times as sweet as cane sugar.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Philadelphia Jack O'Brien (center) and the exercises Contance Talmadge employs to keep fit and beautiful.

BY PHILADELPHIA JACK O'BRIEN
Athlete and Physical Director.
If women could be prevailed upon to continue their athletics with half the zeal with which they begin we should soon have a race of super-women. But they are quicker to stop than to start. Men realize exercise is necessary to keep them fit for their work. They undertake it in moderation and keep it up. But women want to accomplish everything at once. They want to lose flesh or gain it more quickly than is possible. If they can't notice results the first week they discontinue.

The only women I find who exercise properly are theatrical women, because it is part of their job to stay fit.

The exercises I am describing today which Contance Talmadge is shown doing so easily, are simple, but if every woman would practice them 15 minutes a day she quickly would gain beauty and health.

They are beneficial at all times, but particularly at this time of the year when the vitality is naturally low. The woman unused to exercise should not do each one more than four times the first day, then on the fourth day increase to eight times, and after six days to 16.

Remember, muscles unused for a number of years are likely to be stiff when put into use. Do not let the stiffness discourage you. This more fully shows you are getting results.

Take the exercises easily at first and do not stiffen the muscles. After each effort come back to normal position and relax. This is important.

The first exercise consists of bending the body to the side from the waist. This reduces the waistline and makes one willowy.

The second is the squatting exercise, promoting a good circulation. This makes eyes bright and complexion clear.

For the third exercise, bend forward as far as you can, keeping knees rigid and hand on hips. This will reduce the abdomen and strengthen the muscles, improving the figure.

Turn head and shoulders as far to one side as you can for number four. This twists the muscles about the waist and is excellent for liver and lungs.

For strengthening the torso there are no better exercises than five and six. Lie flat on the floor and interlock the fingers back of the neck. Then raise the upper part of the body until the elbows rest on the knees.

Another good exercise is the windmill exercise. This consists in bending at the waist until you can touch the left foot with the right hand finger tips, and the right foot with the left hand finger tips.

For reduction of weight nothing is more effective than walking. Hold in the hands grips—that is, one-half pound weights covered with cork. This will produce a perspiration and the flesh melts away as if by magic.

A muffler of silk or wool is tied about the neck with many folds so the throat is completely swathed, worn while doing the walking exercise. will effectively discourage the chin that is showing a desire to multiply.

construction cost for the sets used.

BY MARIAN HALE.
Beauty advice to women—from a man!
That's something new under the sun, isn't it?
But this man—Philadelphia Jack O'Brien, famous athlete and former prizefighter, is well qualified to give it because he's now operating two athletic institutes, devoting himself to keeping men and women fit.
He tells you today the exercises Contance Talmadge takes—and look how slim and graceful she is and the "pop" she has!
The exercises aren't hard. Let's try them as a foil for our annual enemy, spring fever.

ward as far as you can, keeping knees rigid and hand on hips. This will reduce the abdomen and strengthen the muscles, improving the figure. Turn head and shoulders as far to one side as you can for number four. This twists the muscles about the waist and is excellent for liver and lungs. FIRST \$1,000,000 PHOTOPLAY

ERICH VON STROHEIM—Star and Director of "FOOLISH WIVES" A UNIVERSAL SUPER JEWEL.

For magnitude and vast expenditures of money, Universal's masterpiece, "Foolish Wives," directed by Erich Von Stroheim is far in excess of any previous photodrama ever conceived. This production actually cost more than one million dollars and has been over a year in the making, but contrary to many so-called "million-dollar productions," the expenditure in both time and money in "Foolish Wives" will be apparent on the screen as may be seen at the Elling Theater two days—Wednesday and Thursday, May 17-18. A recent analysis of the cost of the production shows \$400,000 as the

directly across the square and the gambling casino to the right. At a cost of \$100,000 this entire square was faithfully reproduced.

So huge is this set that long shafts of 600 feet from two absolutely different angles were possible. For six weeks, 110 carpenters, 32 plasterers and 20 ornamental plasterers worked on this set.

The film is recognized in moving picture circles as "the greatest achievement of Carl Laemmle, chief of the Universal film company."

Founder of Bismarck Tribune Is Injured in Washington

Many friends of Clement A. Lounsberry, founder of the Bismarck Tribune, in 1873, late colonel of the 20th Michigan Infantry and author of "Early History of North Dakota," will be sorry to learn that he suffered an accident in Washington, D. C., which kept him in bed for several weeks. Col. Lounsberry, according to word received here, slipped and fell, striking his back against a curb, making a frightful bruise of the flesh and injuring the spine to some extent, so that for four weeks he was not able to turn in bed.

Because of the accident he was forced to accept the benefits of the federal retirement act and his connection with the General Land Office, where he has been employed for many years, will cease May 20. He will receive annuity and pension.

Col. Lounsberry in messages to friends has expressed the desire that his books and manuscripts go to the Historical Society.

and is today the largest selling liquid laxative in the world, the formula has never been improved upon. It is safer and better for you than salts, minerals, calomel, coal tar and such drastic purgatives.

SYRUP PEPSIN IN OLD AGE

Much used by elderly people for constipation, biliousness, headache, etc.

MANY men and women, as they grow older, suffer constantly from little ills. The cause is the poisons produced by chronic constipation, resulting in headache, depression, bloating, sour stomach, bad breath, etc. A single bottle of Dr. Caldwell's Syrup Pepsin will prove to you that you can so regulate yourself that elimination will occur promptly every day. Increased doses are not necessary. It is a combination of Egyptian Senna and other simple laxative herbs with pepsin. The cost is only about a cent a dose.

In spite of the fact that Dr. Caldwell's Syrup Pepsin has been on the market 30 years

and is today the largest selling liquid laxative in the world, the formula has never been improved upon. It is safer and better for you than salts, minerals, calomel, coal tar and such drastic purgatives.

Half-Ounce Bottle Free
Few escape constipation, so even if you do not require a laxative at this moment let me send you a Half-Ounce Trial Bottle of my Syrup Pepsin FREE OF CHARGE so that you will have it handy when needed. Simply send your name and address to Dr. W. B. Caldwell, 514 Washington St., Monticello, N. H. Write me today.

Social and Personal

Former Officers Are Re-elected at Closing Meeting

The Thursday Musical Club held the last meeting of the year yesterday afternoon at the home of Mrs. J. P. Franch, 617 Fourth Street. Nineteen members responded to roll call. There was no program as this was the annual business meeting.

The club re-elected all of its officers which are as follows:

President—Mrs. J. C. Taylor.
Vice-president—Mrs. John P. Franch.
Secretary—Mrs. John L. Hughes.
Corresponding secretary—Mrs. John Graham.
Treasurer—Mrs. E. H. L. Vesperman.

The treasurer and the secretary gave their annual reports. Reports were given by delegates to the State Festival and Biennial Convention of the State Music Club at Grand Forks. The members of the club feel that they have had a most successful year and that splendid progress has been made, and they are looking forward to a year which they hope will exceed the attainments of the past year.

W. C. T. U. Drive Will Close on Mothers' Day

Mothers' Day, May 14th, will mark the final day of the National W. C. T. U. intensive drive for a million members. Already reports are testifying in gratifying fashion to the splendid results of this drive. The Englewood Union, Chicago, has 300 new members and many other unions are showing an equally great progressive spirit.

Member for number, vote for vote, dollar for dollar! That is the slogan of the National Women's Christian Temperance Union's one million membership drive which opened April 24.

All over the United States special teams were organized and these have been competing to see which state will win the most members during the period of the intensive drive. Prizes will be awarded as follows: A silver loving cup, now held by New York, to the state showing the best co-operation in the National W. C. T. U. membership program for 1922; a banner presented in 1898 by Frances E. Willard and now held by California, south to the state making the largest net gain in membership.

The W. C. T. U. has prepared a special reply to "Why a million members?" answering the Association Against the Prohibition Amendment. Calling upon women everywhere to "march the circle of service," Mrs. Frances E. Parks, National Corresponding Secretary and National Superintendent of Organization, says: "Enroll to help the Eighteenth Amendment keep true liberty, prosperity and self-respect in America."

Somewhere in the United States there is a little boy or girl who is going to be very proud and happy one of these days. Why? A complete radio outfit, capable of snatching songs and messages from the air over a considerable distance, will be awarded by the National W. C. T. U. to the one who turns in the largest number of subscriptions to the "Young Crusader," which is the official juvenile publication of the W. C. T. U.

ENGAGEMENT ANNOUNCED.
North Dakotans, especially those in Episcopal circles, will be interested in the announcements issued by Mrs. Mary Root of Providence, R. I., of the engagement of her daughter, Mrs. Robert S. Gillett of Hartford, Conn., to the Rev. Samuel Harmon Edgall, rector of Trinity church at Hartford.

RETURNS TO HOME.
Mrs. J. J. Clark, who has been visiting at the home of her daughters, Mrs. E. T. Beatt and Mrs. John Maasen for the past three months, returned this morning to her home at Long Beach, California. Mrs. Clark is returning via Seattle and will visit at various places before returning to California.

TO ATTEND FUNERAL.
Miss Ida Grech and Miss Loretta Singer, classmates of Miss Emch, who passed away at the hospital yesterday, will accompany the remains to Leith, N. D., where the funeral services will be held. Miss Singer is going as a representative of the Royal Neighbor lodge of which the deceased was a member.

WILL GIVE RECITAL.
The pupils of Mrs. Genevieve Menard Hughes, will appear in a recital to be given at the high school auditorium on Tuesday evening, May 16, at eight o'clock.

GUESTS OF PARENTS.
Mr. and Mrs. A. Finzel of Portal, N. D., are visiting here guests at the home of Mrs. Finzel's parents, Mr. and Mrs. C. H. Lien.

ON MOTOR TRIP.
Mrs. Peter Reid and son Russell Reid, left this morning on a motor trip to Dickinson, where they will visit friends.

IS VISITING FRIENDS.
Mrs. John Crowder of Van Hook, a former resident of Bismarck, is visiting friends in the city for a few days.

DRISCOLL VISITORS.
Darwin Geary and son of Driscoll, were visiting in the city yesterday.

COMMITTEE MEETS.
The Social committee of the Modern Brotherhood of America lodge met last evening at the home of Mrs. Frank McCormick to make plans for the social and dance which will be given next Thursday night. The committee with Mrs. L. S. Wilbur, chairman,

promises this event to be a most enjoyable affair.

RETURNS FROM WASHINGTON.
Mrs. E. A. Skeels and daughter Peggy have returned from Washington, D. C., where she attended the dist. continental congress of the national society of the daughters of the American Revolution. Mrs. Skeels was a delegate from the Minnesota chapter.

ON VACATION TRIP.
Miss Olive McJoggie, nurse at the St. Alexis hospital, left this morning for Glendive, Mont., where she will spend her two weeks vacation at her home.

VISITING FATHER HERE.
Mrs. Carl Lidstrom of Detroit, Minn., is visiting her father, E. C. Taylor, who is ill at the Bismarck hospital. Mr. Taylor recently returned to Bismarck from the west where he spent the winter months.

VISITING SISTER.
Miss Jean C. Morrison of Topeka, Kansas, arrived in Bismarck this noon and will be the guest at the home of her sister and brother-in-law, Mr. and Mrs. L. Van Hook.

FROM PARSHALL.
Miss Mary Van Horn of Parshall, N. D., is visiting friends in Bismarck for a few days. Miss Van Horn attended the local high school and has many friends here.

ENTERTAIN AT TEA.
Miss Mary Giffin and Miss Winifred Robertson entertained the high school teachers at tea at the home of Mrs. E. A. Thorberg, 712 Fourth street.

RETURNS TO HOME.
E. A. Duemeland of St. Clair, Minn., who has been visiting at the home of his sons here, returned to his home last evening.

BUSINESS VISITORS.
Thomas Fisher and Thomas Pugh of Wilmon, county commissioners, were business visitors in the city today.

HERE ON BUSINESS.
B. W. Wilson, general passenger agent of the C. B. & Q. railroad, is in the city on a business visit.

HERE FROM FARGO.
H. D. Paulson of Fargo, was a business visitor in Bismarck today.

MOFFETT VISITOR.
Angus S. Benz of Moffett, was a visitor in the capital city yesterday.

WILTON VISITOR.
Mrs. W. P. Macomber of Wilton was a visitor in the city yesterday.

CITY NEWS

House Is Sold.
Robert Krone, of the Bismarck Sign company, has purchased a home on East Thayer street from A. C. Hinckley, the deal being made through the F. E. Heddon agency.

Leaves Hospital.
Mrs. Blythe of New Leipzig, who has been a patient at the St. Alexis hospital returned to her home today. Her son Joseph came to Bismarck to visit her and will accompany her to their home.

Bloom Case Postponed.
The case involving the title to office of fish and game commissioner, claimed by John H. Bloom, which was to have been heard in district court today, has been postponed until May 22, because of the absence from the city of William Langer, an attorney in the case.

Under Arrest.
Albert Schneider, 19, of Wishek, is under arrest on a charge of stealing a suit of clothes and a pair of shoes from Melech. Police say he shipped the clothes, which were stolen from a lodging house, to Wishek. Schneider waived preliminary examination and was bound to district court under \$200 bond.

WOMAN'S COMPLEX LIFE.
Woman's complex life with its multitudinous calls is given as the reason for many a nervous breakdown. Home work, social obligations, dressmaking and the care of children keep the 20th century woman in a whirlwind of activity until headaches develop, backache, nervousness and oftentimes more serious ills which are peculiar to her sex alone. Such women should not despair, but be guided by the letters so often published in this paper from women who have been in just such conditions, but who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

This is a root and herb medicine that contains no drugs and can be taken in safety by any woman.—Adv.

For Sale. Choice Canary Singers. J. Bull, Dickinson, N. Dak.

ON MOTOR TRIP.
Mrs. Peter Reid and son Russell Reid, left this morning on a motor trip to Dickinson, where they will visit friends.

STUDENT NURSE OF ST. ALEXIUS HOSPITAL, DIES

Miss Lois Emch Passes Away At Hospital on Eve of Her Graduation

It is with sorrow we write of the death of Miss Lois Emch a student and member of this year's graduating class of St. Alexis Hospital Training School for Nurses who peacefully died at St. Alexis Hospital yesterday with her parents, sisters of the hospital and classmates at her bedside. With what anticipation she was looking forward to her graduation! And now with what sorrow her classmates feel their distinct loss!

Miss Emch was born at Carroll, Neb., April 23, 1903. When a child she came to Leith, N. D., with her parents. She was educated in the country schools at Leith and attended high school at Carson. After teaching school one year she spent some time at Valley City Normal and while a student there she did her first nursing work, answering the call for volunteer nurses during the influenza epidemic.

Miss Emch entered St. Alexis Hospital Training School for Nurses April 9, 1919. She was wonderfully adapted to her chosen profession. Her work was distinguished by rare faithfulness and marked consideration for others. She was a member of the Presbyterian church, also of the Royal Neighbor Lodge. St. Alexis Hospital Training School for Nurses extend their sympathy to her parents and with them mourn her loss.—Contributed.

For Assessor, 2nd District—Joe Packinaw, Jr., Elbowoods.
Official Paper—Washburn Leader.

LABOR LEADER INDICTED GETS JAIL RELEASE

Jeremiah Horn Is Freed Through Error From County Jail In Chicago

Chicago, May 12.—Through an unexplained error through some official, Jeremiah Horn, former union keeper indicted with several labor leaders for murder in connection with the killing of two policemen, was released from the county jail last night on \$50 bail after being booked on a disorderly conduct charge, and has disappeared. Two squads of detectives were ordered by Chief of Police Fitzmorris to scout the city for Horn when his release became known today.

"If the same law in the anarchists (Haymarket) case is followed I am convinced we have enough evidence to hang Murphy and others," said George Gorman, state's attorney, today.

AUTHORITY TO BRING ARMORY SUIT UPHELD

Case Proceeds to Trial on Its Merits Before Judge Nussle In District Court

The armory case is being tried on its merits before Judge Nussle in district court. Judge Nussle held that sufficient showing of authority to bring the action was made by those officers and members of the company and holding company to bring the suit. The authority to bring the action had been questioned by the defense.

The case will continue all day today, it was indicated. Among the witnesses called by the attorneys for Company A, National Guard Training School, were Maj. A. B. Welch, Mandan; A. H. Scharnowski, F. L. Shepard, J. A. Graham, E. M. Thompson, H. A. Brocopp.

Mr. Scharnowski was on the stand at noon adjournment. He testified as

GIRLS! LEMONS BLEACH THE SKIN

Squeeze the juice of two lemons in to a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.

Good Clothes Care

to his efforts to reorganize old Company A in the spring of 1921, said that a sufficient number of men were signed up but that the company could not get state recognition because it had no armory.

Major Welch, on the stand again this morning, said that all members of old Company A were discharged in order to be drafted into the service of the United States army during the war. He declared that indorsees of notes of the armory corporation had been interviewed personally and it was agreed by them that they would not be pressed for collection. If the company were able to reorganize after the war the obligation would be assumed, he said; if not, the indorsees were willing not to press collection.

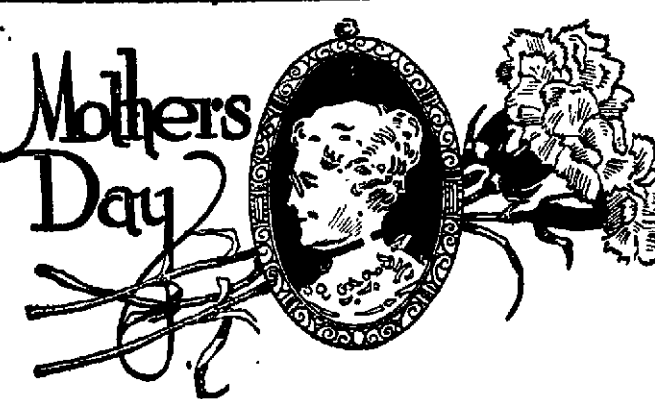

Various transactions leading to the conveying of the armory property were detailed by witnesses.

It was expected that the defense of the case would begin presentation of evidence late this afternoon. It is the contention of the defense that there

was ample authority to make the conveyance and that note-holders were thus reimbursed.

DYED A SWEATER AND SKIRT WITH DIAMOND DYES

Every "Diamond Dyes" package tells how to dye or tint any worn, faded garment or drapery a new rich color that will not streak, spot, fade, or run. Perfect home dyeing is guaranteed with Diamond Dyes even if you have never dyed before. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. For fifty-one years millions of women have been using "Diamond Dyes" to add years of wear to their old, shabby waists, skirts, dresses, coats, sweaters, stockings, draperies, hangings, everything!

Mothers' Day

You never miss mother until she is gone. This is the reason why Mother's Day should be more faithfully observed than any other day in the year. She is always thinking of you and the happiest moments of her life are when anything occurs to prove to her that you have remembered her. Mother's Day comes on Sunday, May 14, and whether she is nearby or in any part of the United States or Canada, remember that we can deliver your flowers to her at a few hours' notice. Do not put it off, but place your order now before you forget it.

Kellogg's Corn Flakes

are a taste-thrill at meals or any time

That's because Kellogg's Corn Flakes are so deliciously flavored—the Kellogg flavor that is known all over the civilized world! You, as well as the little folks, can eat great bowlsful of Kellogg's Corn Flakes day after day—and each sunny-brown, crispy, crunchy spoonful thrills the taste as though it was the first!

Put Kellogg's in comparison with imitation corn flakes! Kellogg's Corn Flakes are never tough or leathery or hard to eat! They are all-the-time crisp, all-the-time good! Don't miss such enjoyment!

Insist upon Kellogg's in the RED and GREEN package that bears the signature of W. K. Kellogg, originator of Corn Flakes! NONE ARE GENUINE WITHOUT IT!

IN GHOST-LAND
The inside of the earth, according to scientists, is "a molten mass"—like a ladleful of lead. We live on a thin crust, corresponding to the shell of an egg.

But there is not much danger of the surface of the earth caving in under us. For instance, here's what it looks like, 2400 feet underground:

This picture, taken nearly half a mile under the ground on which we walk, shows iron miners at work. It is part of a moving picture film, one of thousands that are being used by the government to advertise American products in all foreign countries.

When the Eskimos first saw one of these trade films, carried 300 miles to them on dogsleds, they were frightened nearly into fits, thinking the shadow figures were ghosts.

Maybe they were not far wrong.

Go to a movie, see a deceased person like Caruso smile and gesture on the screen, and you behold something that makes the Witch of Endor's black magic look like parlor tricks.

It costs a lot of freight to ship a sample railroad locomotive to China. So Uncle Sam sends the locomotive's ghost—a movie film, showing all details of how the thing works—and the cost is next to nothing.

The redwood trees of California are the largest and the oldest living things on earth. Some of them were giants 2000 years ago.

A government trade film, showing these trees, could be handed down to future generations after it ends its career as a spectral salesman. By repeatedly duplicating the film, whenever decay of old age set in, it would be possible for people in the year 1922,000 to see the movie ghost of these trees tossing in a storm during the year 1922.

There is something uncanny about the movies, when you analyze them—something ghostly, defying time, hitherto the universal and inevitable destroyer.

WOOD ALCOHOL

Every patron of a bootlegger occasionally has a bad moment when he wonders if, by any chance, the stuff he has just swallowed puts him on the list of wood alcohol's victims.

Millions of people discuss wood alcohol daily. Yet the average person knows next to nothing about this mysterious poison, except that it removes varnish, causes blindness and death, and is used by unscrupulous bootleggers because it is cheap.

So, Watson:

Methyl alcohol, commonly known as wood alcohol, was first discovered in 1812 by the research chemist, Taylor.

It is formed by the destructive distillation of wood. Also, it can be made from formaldehyde, intentionally or accidentally. You observe the possibilities of synthetic hooch made from alcohol that has been "spiked" with formaldehyde or other poisons, by government order, to make it unfit for beverage purposes.

Intoxication from wood alcohol is similar to the effects of pure bonded liquor—at first.

It intoxicates slowly and is remarkable for the duration of its "hangover," as undertakers will testify.

A teaspoonful of wood alcohol is sufficient to cause blindness, beginning with double vision, falling of the body's temperature, loss of sensation in the nerve centers, and rhythmic convulsions.

A drink of wood alcohol causes blindness 90 times out of 100, and usually means certain death, though sometimes the patient lingers for as long as a year.

Here is a sentence which, if written indelibly in every brain, would save many a life:

"It is worthy of note that in many cases methyl alcohol amblyopia" (beginning of blindness) "has resulted from the excessive use of essence of gin-

ger, peppermint, or other aromatics, in the preparation of which the alcohol has been used as a menstruum" (solvent.)

That is a quotation from the United States Dispensatory, the official medical guide used by druggists and physicians.

What to do when some one has swallowed wood alcohol? Rush for a doctor. Even he can do little except strive to get it out of the system, cause free sweating and administer large doses of sodium bicarbonate dissolved in water.

Ethyl alcohol—the grain alcohol of so-called pure whiskey, sought by many as the elixir of youth—consists of a combination of two atoms of carbon, one of oxygen, six of hydrogen.

From that, take two atoms of hydrogen and one of carbon, and you have wood alcohol.

Funny, what a difference just a few atoms make.

1874
In 1874, many things happened that were surprisingly like the big news events of modern times.

Chang and Eng, original Siamese twins, died in 1874. Police dispersed a red-flag demonstration by communists in Tompkins Square, New York.

The shore end of a new Atlantic cable was landed at Rye Beach, N. H., July 15, 1874. In 1922 the Western Union is getting ready to lay another cable—10 times as powerful as the old ones, but fundamentally the same thing.

Life is just as interesting, one generation as the next.

STINNES
South Americans are beginning to see swarms of motor-trucks, dashing among them, with "Hugo Stinnes, S. A." painted on the sides in field-gray over red-and-black squares.

Stinnes is "penetrating" South America, establishing export agencies to feed heavy volume of freight into his steamship lines.

In watching Germany's moves at European conferences, don't forget to keep an eye on Hugo. If a genuine crisis rises, he will have a lot to say at German headquarters.

Stinnes is the kaiser of German business.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

REJECTED LOVE OF SHEIK
Pursued across Egypt for three weeks by a real sheik who wouldn't take "no" for an answer, was the experience of Miss Dorothy Farnum, 23 year old New York dramatist and author.

Miss Farnum returned recently on the Carmania, wearing a harem veil and a reminiscent smile when ship news reporters interviewed her.

Ordinarily the ship news sleuths are somewhat circumspect when prodding into passengers' romances. But in the case of Miss Farnum a wireless received from the Carmania when in mid-ocean, tipped off the Egyptian episode, and Miss Farnum being both a dramatist and an author, it was assumed that she would understand.

The sheik was a personage of royal blood, and his name was Lukfellah. It seems that he was hiding behind a large date tree when the Carmania's party first went ashore at Alexandria.

Miss Farnum went shopping and bought a black gown of rich material shimmering with lace.

"It was beautiful," she said, "and as soon as I put it on men followed me to my hotel and waited until I came out again. But the women looked at me askance. Finally a man who said he was an emissary of Prince Lukfellah begged for an audience for his master.

"And what do you think? He wanted to buy me. He thought I was for sale, and to my amazement and chagrin I learned that I had on the gown of high class slaves which proclaimed that their owners had put them up for the highest bidder. I got that gown off pretty quick and haven't had it on since.

"I lost no time in straightening out the prince. Then he wanted me for a wife. He only had four. He insisted upon giving me presents of all kinds, two bracelets, made of silver strans, an amulet to preserve my life, and a necklace of amber which he said had been in his family many years.

"He handed me a glass of water, saying, 'Whoever drinks of the Nile water must return.' At the bottom of the glass lay the necklace which he said I must keep. 'This,' he said, 'has been dipped in the Nile with the sun of Egypt on it.' Then he gave me the belt he wore with the uniform in which he fought for the deposed sultan."

Thereafter, while the party remained in Egypt, Prince Lukfellah was never more than one or two sand dunes behind.

No tourist pace was too swift for him to follow. Overnight they might lose sight of him, but he was sure to bob up at the next port of call, dogging Miss Farnum's footsteps and apparently awaiting an opportunity to whisk her across his saddle bow, and hey! for the open desert spaces.

But, alas, the opportunity never came, and when the Carmania passed Gibraltar on her return voyage the prince could be seen sitting on the rugged promontory which marks the northernmost point of Morocco, waving his white turban and weeping.

Passengers implied that the crop of sheiks was ample to furnish at least one romance for every properly conducted Mediterranean cruise. — New York Sun.

"GREENWICH VILLAGE FOLLIES," SECOND EDITION, COMING TO BISMARCK, MAY 23

Richard Mancy, business manager and press representative of the Greenwich Village Follies, was in Bismarck yesterday concluding arrangements for the performance of the "Follies" at the auditorium on Tuesday night, May 23. The "Follies" that plays at the auditorium on that date is the new second annual production, and is not to be confused with the first of these comic and antic annuals seen at the auditorium last winter. The current "Follies" is reputed to surpass its predecessor in all its humorous, pictorial and lyric phases, which is a high compliment indeed.

The "Follies" played all of last season at the Greenwich Village and Shubert theaters in New York. This season it has played all the larger cities of the east, including a noteworthy run of 12 weeks at the Garrick theater, Chicago. The "Follies" played remarkable engagements in Minneapolis and St. Paul, early in January. The revue was just concluded a tour of the larger cities of the Pacific coast where it met with the same success that attended its efforts in the east.

It is worthy of mention that the first of the "Follies" on its visit to Bismarck last season played to the largest gross business every played to by a road attraction at the auditorium. The receipt for the "Follies" engagement last season, \$2,457, exceeded by 33 1/3 the gross business played to by Al Jolson at the same theater. The "Follies" business here was all the more notable because the scale of admission prices were considerably lower than those asked for the Jolson show.

This new second annual production of the "Follies" is an even more expensive show than the first edition. There are 65 people in the company, the show is in 19 episodes, and five cars are necessary to transport the company with its baggage, scenery and equipment to Bismarck. In this

a year generally credited with being one of the poorest in theatrical history, Mr. Mancy says that the business of the "Follies" is up to the high mark of last year. This, in itself, is a striking tribute to the merit and quality of this later version of the Greenwich Village Follies.

The "Follies" company is headed by Bert Savoy and Jay Greenan, and in such such conspicuous personalities as Pee Wee Myers and Ford Hanford, and Baker, McCarthy Sisters, Louis and Frieda Berkoff, James Clemons, Collins and Hart, Julia Silvers, Russell, Scott, Had Hadley, Mildred Mann, and other famous names.

The "Follies" is the only show of the kind in the city, and is a most attractive and interesting group seen here since the previous visit of the exotics.

AT THE THEATERS

THE ELTINGE
The attraction at the Eltinge for Friday and Saturday is Harold Lloyd, latest comedy, "A Sailor Made Man." Great interest has been shown in the coming of this picture as it has made a fine reputation for entertainment value wherever shown. The past weeks and many inquiries have been received at the Eltinge as to when "Sailor Made Man" was coming.

In addition to the Lloyd picture (which is in four reels) there is a James Oliver Hume story "The White Mouse," featuring Lewis Stone and Noah Beery, an Aesop Fable, "The Cat and the Swordfish," and the new pictures, Kinograms.

CAPITOL
William Duncan may well feel relieved that he has finished his share of the work on "The Silent Vow," his production of life in the Canadian Northwest. Duncan not only directed the production, but also played two roles in the piece. His famous co-star, Edith Johnson, plays opposite him. The picture will be shown at Capitol theater tomorrow only.

The concluding scenes of "The Silent Vow" contain one big feature which has never been shown on the screen before. This is the dynamiting of an entire mile of mountain stream. The story deals with the operations of a group of illegal fishermen, who resort to the forbidden method of planting high-powered explosives under water for the purpose of slaughtering fish wholesale. The hero, a member of the famous North West Mounted Police, is operating against this gang. The dynamiting scenes are spectacular in the extreme.

ADVENTURE OF THE TWINS

By Olive Barton Roberts

Along a glittering road went Nancy and Nick and the Magical Mushroom to find Mr. Peerrabout, the Man-in-the-Moon.

Nancy supposed he would be living in one of the cities they had seen from the mountain, probably the marble city with trimmings of jewels, and that his house would be the finest one in it.

She pictured him in gorgeous robes of velvet and fine ermine with perhaps a gorgeous crown on his head. Nick wondered if he rode a white horse—or would he be more likely to do his traveling along the glittering roads in an automobile?

Probably that was it—a gold car it would be, no doubt, with ivory trimmings. And would he have two footmen, or four, or six?

What a gorgeous place the moon was! It would certainly be nice to live there. Imagine living in an ivory house with—

Suddenly the Mushroom stopped and turned off on a little side path that led into the midst of the silver forest.

The Twins followed, wondering what was going to happen. But they had not long to wait, for in a few moments they came to a small tumble-down wooden hut almost hidden by the low-hanging branches of a silver-willow tree.

"The house are!" nodded the Mushroom, stepping up to the door and tapping sharply. "I do hope that Mr. Peerrabout is at home!"

"Mr. Peerrabout!" gasped Nancy. "Home?" exclaimed Nick. "What could it all mean?"

"Yes," smiled the Mushroom. "This is where the Man-in-the-Moon lives. At least he used to live here. Unless he's got so poor he had to move out."

Had the Mushroom lost his senses? What did he mean by talking that way? The poorest person in the world surely wouldn't want to live in such a rickety, tumble-down place.

TODAY'S WORD

Today's word is **DISPARAGE**. It's pronounced — dis-par-aj, with accent on the second syllable. It means — to depreciate, to cheapen, to detract from.

It comes from — the Latin prefix "dis," signifying the reversal of an action, and "par," also Latin, meaning equal.

It's used like this — "Residents of San Francisco and Los Angeles seldom miss an opportunity to disparage, each, the city of the other."

A THOUGHT

The Lord God is a sun and a shield: the Lord will give grace and glory: no good thing will He withhold from them that walk uprightly. —Mark 9:23.

Who hath not owned, with rapture-smitten frame, The power of grace, the magic of a name? —Thomas Campbell.

Roller skates were invented in 1823.

HEALTH IS GOOD FOR FIRST TIME IN FIVE YEARS
Minnesota Man Declares Stubborn Stomach Trouble Disappeared Entirely And He Feels Fine Since Taking Tanlac.

"I enjoy good health now for the first time in five years," said Emil Gilbertson, of Cottonwood, Minn. "Nervous indigestion with kidney pains made me so run down I could hardly do my work. After meals I bloated up terribly with gas which pressed around my heart and hurt me so badly I could scarcely stand it. At night I was so choked up, nervous and racked with pain I couldn't sleep, just rolled and tossed and even walked the floor, and got up in the mornings feeling like I had just finished a hard day's work."

"But my appetite is back in full force and I feel just fine since taking Tanlac. My kidneys are all right and I have been built up in every way. I believe Tanlac will help anybody."

Tanlac is sold by all good druggists.—Adv.

On the recommendation of a friend I bought a bottle of May's Wonderful Remedy and she is all right now and has gained forty pounds." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments including appendicitis. One dose will convince or money refunded. For sale at all druggists. Adv.

LEGION MEN TO ASK PRECEDENT BE FOLLOWED

The precedent heretofore established by the American Legion in North Dakota in advancing the Vice-Commander of the Department of North Dakota to the position of Commander at the annual convention is expected by members of Lloyd Spetz Post No. 1 to be followed at the annual convention to be held at Devils Lake. It is with this expectation that delegates from Lloyd Spetz post will present the name of Major C. E. Russ Jr., of Bismarck, Vice-Commander, for the post of Commander to succeed Philip Bangs, of Grand Forks.

Because of Major Russ' activity in the Legion since its inception, his aid in building up Lloyd Spetz post and the state department, the local legion post is enthusiastic over the prospect of electing the state commander. Mr. Russ enlisted as a private, May 4, 1917 at Ft. Snelling, Minn., was sent to the first officers' training camp and commissioned captain of infantry August 15, 1917. He was assigned to the supply company, 352nd infantry, at Camp Dodge, Iowa, being one of the first officers to reach that post. He was promoted to major May 23, 1918, and went to France in July in command of the 352nd infantry, 88th division. He was discharged at Camp Dodge in June, 1919, having spent nearly a year in France.

Major Russ' battalion saw action on the Haut-Alsace sector from September 15 until the signing of the armistice. Major Russ received two divisional citations for conduct under fire, these being for actions during battle on November 2, 1918.

McLEAN COUNTY ATHLETIC MEET HELD AT WILTON

Wilton, N. D., May 12.—The first annual high school athletic meet is being held here today, with entries from Coleharbor, Turtle Lake, Washburn and Wilton. There was a good attendance although a raw wind was sweeping over the city.

Debates also are scheduled for the day. A declamation contest between Wilton and Turtle Lake was scheduled for this morning and a debate tonight on the question of immigration restriction by Turtle Lake and Wilton. Judges for the first contest were Miss Hazel Nielson, Bismarck; W. E. Parsons, Bismarck; Rev. Bergum, Washburn, Judges for the evening contest are C. L. Nyberg, Bismarck; G. Olgerson, Wing; Rev. Bergum.

The domestic science class will serve supper.

"DEPENDABLE" IS THE WATCHWORD OF DODGE

On the familiar blue sign boards of Dodge Brothers, this month is the plain word "Dependable." The world of meaning wrapped up in this single word has come to be closely associated with Dodge Brothers cars the country over.

"Innumerable illustrations could be given," says M. B. Gilman "as to why Dependable so well describes the general opinion of over 700,000 owners of Dodge Brothers cars.

"This week, the owner of a Dodge Brothers car 6 years old, came into our salesroom. He has driven his car over 18,000 miles and has never purchased a single part.

"Rohrer's Taxi Line is using a Dodge Brothers touring car that has run over 70,000 miles in the most severe service.

The first car shipped from Dodge Brothers' factory was Number 1—this was about 8 years ago. Cars were receiving now are over 725,000 in number. Yet out at Taylor, N. D., in daily operation, is Dodge Brothers car Number 207, which left the factory December 14, 1904. This, so far as we know, is the oldest Dodge Brothers car in North Dakota.

"It is such years and years of continuous operation, over extreme mileage, in the hands of over 700,000 owners that has earned for Dodge Brothers cars, the well merited word Dependable."

HUDSON-ESSEX MAY PRODUCTION BIGGEST IN HISTORY

"May production of Hudson and Essex cars will be the greatest in the companies' history, eclipsing even the totals hung up during the unprecedented buying of 1920," says R. B. Loubek, local Hudson-Essex dealer. Production is certain to be considerably higher than for March, 1920, hitherto the banner month.

"Despite this, shipments are not keeping pace with orders," says Mr. Loubek. "Throughout the country, salesmen are forced to tell buyers that they must wait until June or even July for delivery. The volume of demand has exceeded what even the most optimistic would predict three months ago. Consequently, actual shortages in materials are holding back bigger production. Many distributors are asking that their monthly allotment be tripled.

"Tentative June production is for the same number of cars as are being turned out this month. The factory announces it will boost this figure higher if possible.

"May production as planned is eight per cent greater than for April, when the factory was operated at what at that time was full capacity, and nearly 100 per cent more than for February, when the buying spurt first got under way. Production for the first four months of 1922 was 149 per cent greater than for the same period last year. Before the end of June, more Hudson and Essex cars will have been manufactured than for the entire 1921 year.

"Hudson-Essex expects for the first four months were more than double those for the entire 1921 year."

PRETTY SHRUB ALMOST GONE

Mountain Laurel, Once Plentiful Everywhere, Has Been Destroyed Through Public Carelessness.

Many years ago, when the American Indians were the only inhabitants of the United States, the mountainsides in springtime were almost white with the blossoms of claymotes, the Indian name for mountain laurel.

Nowadays the laurel is not so plentiful. People have broken down too many plants and pulled up too many others by the roots. Still you may find some of these low, scraggly bushes if you are familiar with the countryside. For in nearly every hilly part of the states, from Maine to Ohio, from Florida to Canada, a few at least of these attractive shrubs are growing.

The roots of these particular plants reach out for surprisingly long distances, seeming to enjoy prowling about in the loose soil of the mountainsides. Yet, with all the roving tendencies of the roots, the patches of plants do not spread, but remain about the same size from year to year. Calico-bush is an old-fashioned name for mountain laurel, a name that some country people think is the only name. Spoonwood is another queer name by which you may hear this same plant called.

WAS DEITY OF ANCIENT EGYPT

Amen One of the Chief Gods—Is Hebrew Word Signifies Strength or Trustworthiness.

A wealth of significance is stored up in the word "Amen."

Amen was one of the oldest deities of the Ancient Egyptians, and one of their chief gods. His emblem was a man wearing a red crown, surmounted by the disk of the sun, in token of his dominion over both the earth and the heavens.

His name meant "hidden" or "concealed," while one of his titles was "Amen-kamut-t," the husband of his mother, thus signifying that the deity in question was at the time the oldest and the youngest of created beings.

In the Hebrew language "Amen" signifies strength or trustworthiness—the "God of Truth," referred to in Isaiah being literally the "God of Amen."

In using the word at the end of our creeds and prayers, therefore, we not only exclaim "So be it!" which is the generally accepted meaning of the term—but affirm the truth of what has been recited.

Sunbeams Destroy Bacteria.

Experiments in various quarters have shown that sunbeams are able to destroy bacteria in water at a depth of at least twenty inches beneath the surface. One might almost liken the rays of light in such a case to javelins and arrows piercing an enemy, for it has been found that the destructive action is greatly diminished if only the perpendicular sunbeams fall upon the water.

The slaughter of the bacteria is by far the greatest when both perpendicular and oblique rays enter the water uninterrupted. Like a ship in action, the sun is most powerful when it can rake the enemy with a cross-fire. And it has to shoot its tiny arrows of light a long way—almost 93,000,000 miles. But, fortunately for us, they get here and they are effective.

Mice as Travelers.

When Robert Burns called a mouse a "wee, sleekit, cow'rin', tim'rous beastie," he was probably not aware that a mouse isn't the frail, helpless little creature it looks to be. According to the discovery of the late David Hutton, of Dumfriesshire, Scotland, the average mouse travels about ten miles a day. Some mice make real speed records, and cover even more ground than this in 24 hours. Mr. Hutton found. There was one mouse in particular, in his collection, that smashed all the long-distance records in mouse-dom by running 365 miles in 35 days. And all this marathon mouse required to keep him going was a half-penny worth of oatmeal during the entire period.

Independence.

"Should a physician give his wealthy patients harmless powders when they insist on being treated, although he knows they are quite well, or should he tell them frankly there is nothing the matter with them?" asked the young doctor.

"That depends on the financial status of the physician," said the elderly doctor. "If he has an income sufficient for his needs and is not dependent on his practice for a living he should not only tell such patients there is nothing the matter with them, but if he feels in a rascally mood he can even afford to pooh-pooh their most cherished symptoms."—Birmingham Age-Herald.

Pets Provided For by Will.

Cat legacies are not peculiar to France. England has had them, and in our own country only a few years ago died the second of two cats, Blackie and Pinkie, that belonged to Benjamin F. Dille of Wilkes-Barre, Pa. Mr. Dille, at his death, left the income of \$40,000 to provide for them as long as they should live, appointed a woman to care for them, and bequeathed her a pension till her death, after which the estate was to be divided, most of it going to charities. Pinkie died first; Blackie followed her two years later at the age of sixteen, which is four years beyond the average life of a cat.

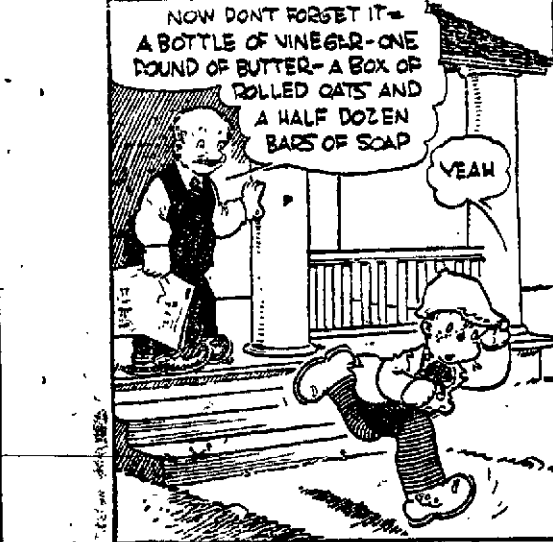

It is unlawful to play billiards in a public place on Sunday, Christmas Day or Good Friday in England.

Sea otters sleep on their backs on the top of the water or in ice with the young otters in their maws.

LAND

FOR RENT, SALE OR EXCHANGE— The Southwest Quarter, Section 13, Township 139, Range 79, located about 14 miles northeast of Bismarck. Lays level, good soil, 60 acres under cultivation, balance fine for flax. Look this over and make offer. E. J. Coats, Aberdeen, So. Dak. 5-8-11.

FOR SALE—8 acres cultivated land, less than a mile from capitol. Will sell on long time, or might rent for potatoes. J. W. Bull. 5-6-11.

MISCELLANEOUS
SOME INSURANCE POLICY—\$200.00 down and \$30.00 a month for ten months buys my equity in a quarter section located near Youngtown, New Salem's best dairy center. Underlaid with millions of tons of coal. Wealthy investors are now taking the lead in opening the eyes of the public to the possibilities in this vicinity. It may take a few years. Lucky the man holding clear title to this quarter section when everybody goes wild about our coal fields and you're paying less than \$20.00 an acre. Inquire J. Henry Kling, Bismarck. 5-13-11.

HEMSTITCHING, Piecing and Now- city piecing, 15c per yard for silk and 10c for cotton. Will do mail orders. Mrs. C. P. Larsen, 400 4th St. 5-12-11.

FOR SALE—Cafe in good live town. This is a division point. Only cafe in town. Reasonable. Easy terms. Write No. 382 Tribune. 5-4-11.

STOLEN from high school, a girl's blue Yale bicycle, 18 inch frame. Return to Emma Zorist for reward. Phone 296. 5-8-11.

FOR SALE—Barn, 30x15; cheap if taken at once. Inquire Geo. Robitson, 112 8th St., or Phone 342. 5-10-11.

FOR SALE—Baby bed, push cart, Hoosier kitchen cabinet, heating stove, 515 9th St. 5-11-11.

FOR SALE—Dark blue baby cab in excellent condition. Phone 658-J, 121 West Thayer. 5-11-11.

MARKETS
AGGRESSIVE ACTION
Chicago, May 12.—Aggressive action upon the part of the bulls forced a new upturn in wheat prices today. The opening which varied from unchanged figures to 1-4 cent higher was followed by a rise of 1-4 cents for May with lesser gains for July and September.

CHICAGO LIVESTOCK
Chicago, May 12.—Cattle receipts, 4,000. Beef steers steady to 25 cents higher.
Hog receipts, 19,000, active on better grades; others 5 to 10 cents lower. Sheep receipts 9,000, lower to 25 cents higher.

ST. PAUL LIVESTOCK
St. Paul, May 12.—Cattle receipts, 1,500 drags, killing classes and weaners and feeders, mostly steady to weak. Best killers today, \$3. Bulk common and medium beef steers, \$7 to \$7.75. Bulk butcher sheeps, \$4.75 to \$5.50. Best light and handyweight, \$9.75 up to around \$7.50. Good and choice stockers and feeders, \$6.75 to \$7.50. Other grades largely, \$5.75 to \$6.50. Calves receipts, 1,900. Strong to 50 cents higher. Best lights mostly, \$7.75 to \$8. Some up to \$8.50. Seconds, \$4.50 to \$5.50.

MINNEAPOLIS FLOUR
Minneapolis, May 12.—Wheat receipts, 136 cars, compared with 121 cars a year ago.
Cash No. 1 northern, \$1.58 1-2 to \$1.64 1-2; May, \$1.56 5-8; July, \$1.55 1-2; September, \$1.27; No. 1 dark northern, \$1.67 3-4 to \$1.76 3-8.
Corn No. 3 yellow, \$1.14 to \$1.14 1-4 cents.
Oats No. 3 white, \$0.28 to \$0.28 3-8 cents.
Rye No. 2, \$1.04 to \$1.05.
Flax No. 1, \$2.65 1-2 to \$2.85 1-2.

BISMARCK GRAIN.
(Furnished by Russell-Miller Co.)
Bismarck, May 2.
No. 1 dark northern \$1.49
No. 1 amber durum 1.18
No. 1 amber durum 1.10

Flax No. 1, \$2.65 1-2 to \$2.85 1-2.

PROTECTION.
Fold sheets and tablecloths with the hemmed sides together, being careful that these are perfectly straight, then hang them on the line along the selvage ends. This will protect them from the wind and avoid wrinkles.

ICING.
The icing on cake will not break if you will dip the cake knife into boiling water a few seconds before cutting the cake.

SAUSAGES.
Rolling sausages in flour and sprinkling them with water keeps them from breaking in frying and gives an excellent flavor.

DUST.
When sweeping a room it is best to lift up the edges of the rug. Dust gathers there and blows out into the room proper.

CLEAN PIPES.
About once a week put a little lye over the drain of the sink and pour hot water through. This keeps the pipes clean.

THE OLD HOME TOWN

GAS COMPANY'S RATE CASE IS BEING HEARD

Reduction in Rates Is Proposed By Bismarck Utility For Trial Period

COAL COSTS BOOSTED

Hearing on the case of the Bismarck Gas Company's application for new rates was held by the state railroad commission today.

The hearing was opened by a presentation of the gas company's case by E. B. Cox, attorney. He said the cost of coal used by the gas company had begun to decrease when the nation-wide coal strike came on. A long-time coal contract cannot now be made, he said, and the reduction in coal prices hoped for apparently will not be obtained. Economies in operation of the plant had been effected, he said.

During the period of high costs and charges, he said, the utility had added consumers to its lists and improved the service. It hoped for a continued increase of business and betterment of service, he said.

The gas company had filed application for continuance of the surcharge for 60 days from May 1, he said, but this was done only for the purpose of consideration of the rate question, and subsequently the utility "in order to show its good faith" filed a schedule of rates instead of asking continuance of the surcharge.

The new rates proposed, he said, represented a reduction of 15c per thousand cubic feet on the basic price of gas. The net rate asked, he said, was \$2.65 for the first thousand with decrease for use of larger amounts.

"The utility appreciates the support of its patrons in the city by the increase in consumption during the period of high rates in the period following the war," said Mr. Cox. Although he said there is no reduction in operating expenses that would justify a reduction, it was the desire of the utility to have the rates put in pending a valuation of the plant by the commission expert. The proposed rates, he said, were intended to net 2 per cent less return on the investment than was contemplated by the commission.

City Attorney Hare appeared at the hearing. The first witness called was G. P. Albrecht, for the gas company. E. G. Patterson appeared at the

LABOR LEADERS ARE INDICTED

True Bills Are Voted by Chicago Grand Jury

Chicago, May 12.—True bills voted last night by the county grand jury, charging "Big Tim" Murphy, Fred Maier and Con Shea, the "big three" of local labor circles, and five others with murder in connection with the death of two policemen were formally returned before Judge Kichham Scanlon, chief justice of the criminal court, today. Judge Scanlon immediately ordered warrants issued for the men who have been held in jail without being booked since the day before yesterday.

CHARLES MERRY MAY RUN FOR CONGRESSMAN

Dickinson, N. D., May 12.—Charles F. Merry, pioneer resident of the Slope country and prominent insurance man, has received requests that he become a candidate for congressman from the third North Dakota district on the Republican ballot.

Mr. Merry stated today that he did not know whether he would consent to enter the race or not but admitted that he had had numerous requests that he become a candidate. He has been a resident of the third congressional district for 39 years, and has always taken a keen interest in the development of this part of the state. Several years ago he organized the Farmers Insurance company with home office at Dickinson. His long residence and wide acquaintance on the Slope, his friends say, make him the logical candidate to oppose Congressman Sinclair at the polls this June.
